LET'S LIFT THE WORLD TOGETHER

AROUND THE WORLD WITH TEREX CRANES

- ▶ Meeting your needs with our comprehensive range of cranes
- ▶ Bringing together diverse experts to deliver application solutions
- ▶ Supporting you with an experienced global team

WORKS FOR YOU.™

GLOBAL TEAM. GLOBAL EXPERIENCE.

Diverse Experts Help Meet Diverse Needs

Bringing true global experience with all climates, terrain conditions and application needs, Terex® cranes deliver a variety of solutions around the world every day. With a range spanning from 20 to 3,525 tons (9 to 3,200 metric tons), a wide selection of styles to choose from and a dedication to technological innovation, Terex® cranes are built to help you get your job done faster, easier and better.

Simply put, whatever your application, there's a perfect Terex choice.

- ▶ Comprehensive product range
- ▶ Knowledgeable and experienced global team
- ▶ Commitment to quality manufacturing and service
- ▶ Worldwide support network

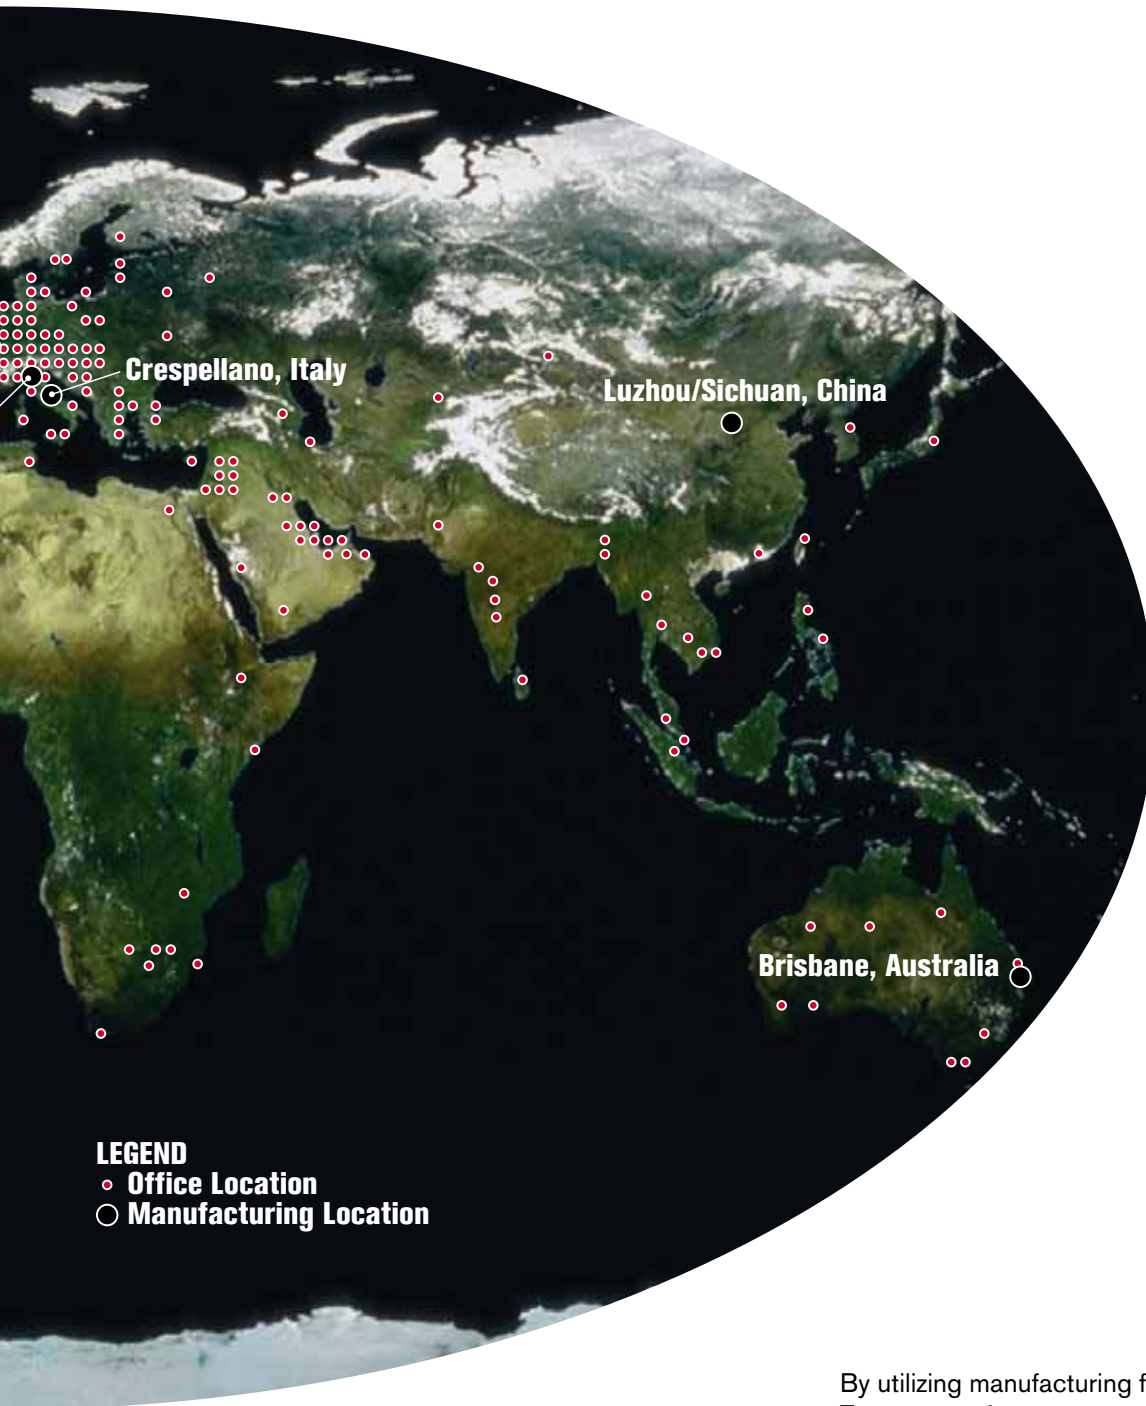

SERVING CUSTOMERS WORLDWIDE

Terex doesn't just say it has an experienced global team – it backs it up with a true worldwide presence in 80 countries and six continents.

A network of more than 300 distributors and 20 Terex sales and service offices is your assurance of quality, expert support just about anywhere your business takes you.

By utilizing manufacturing facilities around the world, the Terex team of cranes experts can draw on a variety of knowledge and experience.

Understanding the different climate, terrain and market needs around the globe helps ensure that Terex® cranes are built for worldwide performance and are backed by worldwide support.

EQUIPMENT THAT WORKS...

Whether you work in Arizona or Zurich or anywhere in between, whether you need a massive tower crane for years or a truck crane for a day, all of our expertise and quality is built into every model.

Machine relocation in the USA

...SUPPORTED TO DELIVER UPTIME

The flexibility built into every Terex® crane lets you perform a wide range of lifting duties. You'll be able to get more done at every jobsite as well as handle more jobs for a return on investment that begins from the very first day your crane is in service.

Wherever you go and whatever the task, Terex® cranes gives you outstanding performance backed by some of the best cranes experts in the business.

Working at an altitude of 3,000 meters (9,850 ft) in the Alps

Bridge construction in California, USA

PRIORITY ON SAFETY...

Quality construction. Outstanding visibility. Anti-slip surfaces. Ergonomic controls. Terex® cranes are built to keep the operator – and everyone around the jobsite – as safe as possible. For your people, your projects and your peace of mind, count on Terex® cranes.

...TO LIFT UP PROFIT

From savings on transportation costs and quick setup to the long-term savings of easy-access maintenance and the efficiency of built-in safety features, Terex® cranes are designed to deliver an outstanding value.

Bridge construction in Minnesota, USA

In Germany: A spectacular triple lifting operation

Traveling to rugged jobsites across the Outback

EXTENSIVE LINEUP OFFERS THE RIGHT CRANE FOR THE JOB

With an unmatched range of lifting capabilities and a dedication to technological innovation, Terex® cranes are built to help you get your job done faster, easier and better. Whatever your application, there's a perfect Terex choice.

All Terrain Cranes

Perhaps no other product shows the global expertise of Terex better than our all terrain cranes. Versatile for a wide range of lifting needs in nearly all climate conditions, Terex® all terrain cranes can move quickly to any jobsite, on or off the road. Featuring a variety of boom lengths and an ergonomic design for operator comfort, Terex® all terrain cranes offer the perfect blend of flexibility and productivity.

Rough Terrain Cranes

Go off the road with confidence with Terex® rough terrain cranes. With excellent ground clearance and three-mode steering, positioning these cranes in even the roughest terrain is not a problem. With optimized weight and width, Terex® rough terrain cranes fit easily on a truck, train or ship for easy transport, and their multiple-speed transmission and maneuverability get them to the jobsite and working.

Crawler Cranes

When you need to think big and powerful, think Terex® crawler cranes. They have more lifting capacity than other types of cranes and maintain excellent maneuverability under heavy load. A complete line of sizes is available, including the world's largest crawler crane with a capacity of up to 3,200 metric tons (3,520 US tons).

Tower Cranes

Available in self-erecting, hammerhead, flat top and luffing jib varieties, each with a wide range of sizes and capacities, Terex® tower cranes can be seen working day in and day out on multi-story construction projects around the world. These cranes are large enough to handle vast projects, yet they're designed for quick setup so you can get right to work. And their strong, rugged construction ensures reliable long-term service.

Truck Cranes

Combining highway mobility with heavy-lifting power, Terex® truck cranes feature quick positioning and rigging so you can get to work right away. The ergonomic cab offers a comfortable working environment that keeps the operator alert and productive from one job to the next.

Boom Truck Cranes

For light-lifting projects, nothing beats the flexibility of Terex® boom truck cranes. Able to travel at highway speeds, Terex® boom truck cranes let you get to the jobsite fast and are often used on multiple projects at several sites throughout the day.

Pick & Carry Cranes

Terex® pick & carry cranes live up to their name with the strength and easy operation to pick up heavy loads and the steering flexibility to move in tight spaces. Their high road speeds get them to the jobsite quickly, and because the articulated frame needs no outriggers, you can get set up and working almost immediately.

City Cranes

The compact dimensions of Terex® city cranes help them go where other cranes can't. Add in the maneuverability to make tight turns against the high curbs of city streets, and it's easy to see why Terex® city cranes are the ideal choice for restricted work areas. Even more, once on the jobsite they have the versatility to perform a wide range of work with only one operator needed.

DELIVERING RESULTS THAT MATTER TO YOU

Whether you use one or many Terex® crane models, you'll enjoy the flexibility to perform a wide range of lifting duties. Count on Terex® cranes for the quality, versatility, uptime and ownership cost savings that add up to outstanding value.

WE HAVE THE RIGHT SOLUTION.

Terex® Cranes and Port Equipment delivers true global support whatever the climate or the terrain, wherever the job. Providing dedicated, innovative solutions for a wide variety of applications, Terex® Cranes and Port Equipment is committed to your productivity, ensuring that you get your job done faster, better, more comfortably and more safely, wherever your job may be.

FINANCIAL SOLUTIONS THAT WORK

Terex Cranes doesn't just support your projects –it supports your business.

Terex Financial Services is part of the Terex family, so you'll work directly with financial professionals who share our unique understanding of the cranes and heavy equipment industries. You can count on a team that will work hard to find effective financial solutions designed to meet your specific needs.

- ▶ **Own or lease equipment with solutions that further your business goals and maximize your return on investment**
- ▶ **Manage cash flow with customized payment schedules that suit your budget**
- ▶ **Off-balance sheet lease options that help control cash flow and improve key financial ratios**
- ▶ **Effective exit strategies for leasing contracts, including equipment upgrades**

A WORLD OF SUPPORT

It's all well and good that Terex Cranes has manufacturing facilities and offices around the world, but your real concern is at your current jobsite, right? Well, don't worry, because Terex Cranes delivers global support on a local level. Terex Cranes is committed to keeping your cranes in service to maximize your return on investment, so whether your support comes from your local dealer or direct from the factory, you can depend on Terex to keep downtime to a minimum.

- ▶ **Many Terex® cranes are designed with interchangeable parts, enabling your dealer to more effectively service your crane if needed**
- ▶ **Terex is committed to providing the service you demand – if a repair part isn't available from our stock, we'll secure it from our factory**

The experienced Terex Cranes team also supports you well beyond service needs. Experts are available to discuss the aspects of any crane or any project you're working on. You can get help from people who understand and speak the language of cranes, providing tips on everything from crane selection to the best setup for both safety and productivity on the job. In short, Terex isn't just a global company, it's a world-class company before, during and after the sale.
